

Rojib Bhattarai

Civil Engineer

Highly motivated and results-driven Civil Engineer with a strong academic background and extensive practical experience in Bridge and Building projects. Seeking a challenging position where I can utilize my skills and knowledge to contribute to the successful completion of projects while ensuring adherence to safety standards and regulatory requirements.

EDUCATION

Bachelors in Civil engineering

Institute of Engineering, Thapathali Campus / Kathmandu / September, 2018 - April, 2023

SKILLS

- In AutoCAD (2D) - Experienced
- Ms excel, MS word, Power point, Outlook - Experienced
- Civil Midas Bridge - Skillful
- Sketch Up - Skillful
- Etabs - Experienced
- Arc GIS - Skillful
- Communication - Experienced

LANGUAGE

Nepali ●●●●●
English ●●●●●

TRAINING/CERTIFICATIONS

Autocad 2D

Civil Engineering Student Society / 2021

Microsoft Office Package Training

Civil Engineering Student Society / 2021

Design Of Bridge Using Limit State Method

Dynamic Solution Pvt. Ltd. / 2023

PROJECTS

Design Of RCC T-Girder Bridge

As part of my academic coursework, I successfully completed a bridge design project located in Chherre, Sindhupalchowk. The project was funded by LRBSU that involved the following:

- Conducted extensive research on bridge design principles, codes, and standards.
- Developed detailed structural calculations and analysis for different bridge components, including foundations, piers, and superstructures.
- Created 3D models and simulations using specialized software to evaluate the structural integrity and performance of the bridge design.
- Collaborated with a team of fellow students to coordinate design efforts, share insights, and address design challenges.
- Prepared comprehensive design reports and presentations, showcasing the technical aspects and feasibility of the proposed bridge design.
- Participated in design review meetings and incorporated feedback from faculty advisors and industry professionals.
